L1 Saving Nature

Endangered Animals

find ≠ lose

Today, there are some **endangered** animals on **Earth**. It means that we can find only a few of them around us. Some examples are whales, pandas, tigers and Asian elephants.

Humans **destroy** the **natural** homes of the animals in the **forests**, **lakes**, and **plains**. When the number of people on Earth **increases**, they need more places for living. They **cut down** trees and **destroy** lakes.

more ≠ fewer

endangered : at risk of dying out

Earth : the name of our planet

around : nearby ; not far from

destroy ≠ make ; build ; create

natural ≠ man-made

forest : jungle

lake : a large area of water surrounded by land

increase : become more

Endangered Animals

Vision 1

L1 Saving Nature

They make homes and **roads** instead. Then the animals won't have a place to live. They will **die out**.

The Iranian **cheetah** is **among** these animals. This wild animal lives only in the plains of Iran. Now there are only a few Iranian cheetahs alive. If people **take care** of them, there is **hope** for this beautiful animal to live.

Recently, families **pay** more **attention** to **nature**, students learn about **saving wildlife**, and some **hunters** don't go hunting **anymore**. In this way, the number of cheetahs is going to increase in the **future**.

anymore : any longer

road : way

plain : a large flat piece of land with few trees

instead : in place of something or someone else

alive ≠ **dead**

then : after that

take care of : protect ; save ; pay attention to

die out : become extinct

hope (n.) : a belief that something you want will happen

among : between

save : keep safe ; protect

amazing
