L1 Saving Nature

find ≠ lose

Today, there are some endangered animals on Earth. It means that we can find only a few of them around us. Some examples are whales, pandas, tigers and Asian elephants.

Humans destroy the natural homes of the animals in the forests, lakes, and plains. When the number of people on Earth increases, they need more places for living. They cut down trees and destroy lakes.

more ≠ fewer

endangered *: at risk of dying out*

Earth *: the name of our planet*

around *: nearby ; not far from*

destroy *≠ make ; build ; create*

natural *≠ man-made*

forest *: jungle*

lake *: a large area of water surrounded by land*

increase *: become more*

Endangered Animals

Vision 1

L1 Saving Nature

They make homes and roads instead. Then the animals won't have a place to live. They will die out.
The Iranian cheetah is among these animals. This wild animal lives only in the plains of Iran. Now there are only a few Iranian cheetahs alive. If people take care of them, there is hope for this beautiful animal to live.
Recently, families pay more attention to nature, students learn about saving wildlife, and some hunters don't go hunting anymore. In this way, the number of cheetahs is going to increase in the future.

anymore *: any longer*

road *: way*

plain *: a large flat piece of land with few trees*

instead *: in place of something or someone else*

alive ≠ dead

then *: after that*

take care of *: protect ; save ; pay attention to*

die out *: become extinct*

hope (n.) *: a belief that something you want will happen*

among *: between*

save *: keep safe ; protect*
